TRANSITION PROCESSES

The Transition Processes define the team's performance, learning, and people goals, establishing a clear direction before project execution begins. These goals guide our planning, alignment, and overall expectations for the project.

People Goals

- Respectful & supportive team culture
- Trust, accountability & open communication
- Active participation from all members
- Peer learning & mentoring
- Adaptability to team dynamics

Performance Goals

- Achieve High Distinction in GP1 & GP2
- Strong WEF competency alignment
- Early draft completion (2 days before deadline)
- Peer review before submission
- Equal contribution & academic integrity
- Deliver a professional-quality final report and presentation.

Learning Goals

- Strengthen qualitative research & interview analysis
- Improve project management & productivity
- Enhance planning & time management
- Develop feedback-handling confidence
- Allocate tasks based on strengths

Collectively, we aim to balance strong performance outcomes with continuous learning, supportive collaboration, and disciplined execution through a clear action plan.

ACTION PROCESSES

The Action Processes outline how the team will coordinate tasks, allocate responsibilities, and monitor progress to ensure effective execution of the project. These processes establish clarity in leadership, communication, and decision-making to maintain productivity and accountability.

Leadership Structure & Roles

- **Project Leader - Nitya Sharma**
– Overall coordination & final decisions
- **Research & Literature Lead - Vinil Vasukuttan**
– Secondary research & WEF alignment
- **Interview & Data Collection Lead – Rasiga. B**
– Draft interview questions & Organise transcripts
- **Editor & Presentation Lead – Ashish Raj**
– Report integration & presentation
- **Data Analysis & Insights Lead - Digvijaysinh Chudasama**
– Analyse interview responses & Identify patterns & trends

While specific roles are assigned, all members contribute to research, discussions, writing, and peer review.

Leader Rationale

Nitya Sharma was appointed as Project Leader based on her structured planning, effective coordination, and proactive communication during the team formation stage. The team unanimously agreed on her leadership, recognising her ability to maintain accountability and ensure timely completion of tasks.

Decision-Making

- Primary approach: Consensus
- If required: Majority vote
- Urgent matters: Leader decision after consultation

Work Strategy

- Research Stage – Topic allocation based on expertise
- Interview Stage – Pair-based design and mock practice
- Analysis Stage – Thematic discussion and pattern identification
- Writing Stage– Section drafting → Final integration
- Final review Stage– Peer review and quality assurance

Communication & Task Tracking

- WhatsApp – Daily updates
- Google Docs – Collaboration
- Google Meet – Major discussions
- Jira – Task tracking & progress monitoring

ACTION PROCESSES

EXECUTION & ACCOUNTABILITY FRAMEWORK

Meetings & Coordination

- Bi-Weekly structured meetings (Wednesday & Sunday) at 7:30 pm with pre-shared agenda on google calendar meet
- Mandatory attendance & documented minutes
- Clear action items with assigned deadlines

Workload & Accountability

- Equitable task allocation based on scope & individual strengths.
- Mutually agreed deadlines with ownership clarity
- Structured resolution pathway (Private → Group → Leader)
- Fair redistribution of responsibilities in case of genuine constraints

Collaboration & Support

- Proactive resource sharing and constructive peer review
- Transparent communication of progress and challenges
- Collaborative interview preparation and section review

Progress Monitoring

- Shared milestone-based project timeline
- Weekly progress evaluation
- Draft submission 2 days before deadline
- Final proofreading 48 hours before submission with built-in buffer
- Review Burndown Chart.

INTERPERSONAL PROCESSES

Positive Team Environment

- Promote equal participation and respect for diverse perspectives
- Maintain professionalism and psychological safety in all interactions.
- Recognise timely task completion and collaborative support
- Conduct retrospective discussions.
- Foster trust, accountability, and open communication

Conflict Management

- Address conflicts promptly through respectful, solution-focused discussions
- Encourage open communication to prevent misunderstandings before escalation.
- Follow structured resolution process (Private → Group → Leader → Course Instructor)

Success & Setback Management

- Celebrate milestone achievements to sustain team engagement.
- Acknowledge exceptional performance to boost morale and motivation.
- Conduct root cause analysis for setbacks and implement corrective actions.
- Translate lessons learned into improved processes for subsequent tasks
- Maintain a solution-oriented mindset rather than assigning blame

FINAL AGREEMENT

All team members agree to uphold this Team Contract and commit to:

- Professional conduct
- Equal contribution
- Respectful communication
- Timely completion of responsibilities
